## Auto Eject Pod Brewing System

H	W	Depth
17.67	9.81	19.69

### Freedom of Choice

Choose from up to three programmable taste profiles (mild, medium or bold) or volume settings (small, medium large).

### Perfectly Brewed Coffee

Enjoy the benefits of Fresh Cup's unmatched brewing capability. Easily develop your brewing parameters for your POD size and weight through simple programming of Pre-infusion, pulse brewing, volume and contact time. A flow meter allows for increased accuracy over a range of pod offerings. Fresh Cup's brew mechanism is designed so the POD lies perfectly flat promoting even extraction of the bed of coffee.

### Operator Convenience

Built in features that add value to your operation and the customer experience:

- Accepts standard travel mugs.
- One touch brew activation
- Back to back brew cycles without reheat delays.
- Easy access spent POD and drip tray with automatic POD counter reset
- Quiet ejection of pods.
- Hot water dispense button for allied products.

### Energy Smart

Choose from three different power modes to conserve energy during periods of non use: power on, power save and power down.
