

WL 100

An unlimited supply of fresh water always on tap

The WL100 is an effective point of use cooler that connects directly to your building's water supply and filters and cools water at the point of dispense to provide an unlimited supply of the best in chilled, hot and ambient water.

Science in. Impurities out.

Delivering Pure Water Technology

This Waterlogic dispenser has 2 core technologies which mean that what you get out of your machine is much better than what goes in:

1. Filtration: The best filtration for your local water conditions will be installed to provide you with the cleanest, and best tasting* drinking water available.

2. BioCote®: Plastic surfaces surrounding the Protection dispensing area are infused with BioCote**.

* Dependant on filter type used and water conditions
** For more information visit www.biocote.com/home-us

Good for the Earth

Waterlogic coolers have been shown to reduce carbon footprint by up to 72% compared to bottled water coolers*. Bottleless water coolers reduce plastic bottle contribution to landfills. The WL100 is ENERGY STAR certified.

Performance Worthy of an Encore

- Cost efficient and robust machine to fit any budget
- Ideal water capacity for small workplaces
- Unlimited hot, cold and ambient water options
- Tower and countertop models to suit any work space area
- BioCote antimicrobial protection to reduce the spread of germs
- BPA Free and better for the environment
- Recessed faucet to prevent contamination
- WQA/NSF 42 and 53 certified carbon filtration is recommended
- Easy connection to your existing water supply

The Boring Bits

Water Options	Technical Features	
	Type available	Tower Countertop
	Freestanding dimensions	349mm (W) x 1022mm (H) x 368mm (D) 13.75" (W) x 40.25" (H) x 14.5" (D)
	Countertop dimensions	352mm (W) x 450mm (H) x 368mm (D) 13.75" (W) x 17.75" (H) x 14.5" (D)
	Dispense area height	216mm (8.5")
Symbols	Weight	Tower: 20.87kg (46lbs) Countertop: 16.33kg (36lbs)
 Ambient water  Cold water  Hot water	Recommended filtration	Tower: 1 x Granular Activated Carbon (GAC) 1 x Carbon Block (CBC) Countertop: 1 x Carbon Block (CBC)
	Capacity	Hot tank: 1.6 liters (0.35 gal) Cold tank: 2.0 liters (0.44 gal)
	Additional Features	Sleep mode Hot water safety feature Removable high capacity drip tray
	Compressor	120v/60Hz compressor
	Water temperatures	Cold: Adjustable Temperature 2.2-12.2°C/36-54°F Hot: 88°C/189°F
