

WL500™ - Sparkling

Satisfy more tastes with sparkling water.

The WL500 delivers exceptional sparkling water and all your chilled and hot water needs too. This self contained, fully programmable model includes multi-stage carbon filtration, ultraviolet light purification and large capacity CO₂. The WL500 will invigorate your workplace with great taste and refreshment throughout the day.

Advanced Technology

The WL500 sparkling has three core technologies:

High Performance Filtration

Multi-stage filtration removes common water contaminants and chlorine to dramatically improve water taste and odor.

In-Tank UV

An in-tank ultraviolet light purifies the water and wipes out harmful bacteria to guarantee safe and clean water.

BioCote® Anti-Microbial Protection

Plastic surfaces surrounding the dispensing area are infused with BioCote®.

Good for the Earth

Waterlogic coolers have been shown to reduce carbon footprint by up to 55% compared to bottled water coolers.*

Bottleless water coolers reduce plastic bottle contribution to landfills.
